

## Cascade 3

DIS-18 module controls barguns for 6 or 16 spirits. All Cascade 3 features are available, in particular programming of cocktails and long drinks.

### Features

#### 16 spirit bargun

- 3 portions for each product- or cocktail key
- dedicated interface for connection to DIS-18 module
- programming with *Cascade 3Builder* software
- 2 shift keys with blinking LED to indicate shift status
- returns to standard portion after dispense
- solenoid and stop valves included
- waterproof keyboard
- hose length 100 cm, input fittings 9.6 mm (3/8")

#### 6 spirit bargun

- compatible with DIS-18 module
- can be extended from 6 to 12 spirits
- programming with *Cascade 3Builder* software
- possibility to program several portions per product
- solenoid valves included
- external key units (SAM – PEX) to increase the number of portions or cocktails

#### Supply system

- spirits can be provided from kegs (pushed with neutral gaz) or from bottles mounted on racks, or bag-in-boxes, both equipped with pneumatic or electrical pumps
- standard Cascade 3 power supplies
- compatible with all Cascade 3 modules
