

The Master Terminal controls the Cascade 3 network as an independent system or in connection with any POS or cash register system.

Technical properties :

- controls up to 24 modules in the same network (DIS, FCM, COF, TER, Econo NS)
- can manage 1000 articles and 200 waiters
- 15 "pools" of waiters in "barman" mode
- credit or self-service mode independent for each waiter
- all parameters of the system can be accessed on the keyboard
- alphanumeric keyboard for text programming
- 4 levels for programming and editing/displaying results
- 4 programmable function keys
- 2 serial ports RS-232 to connect a printer and a cash register (POS)
- internal real time clock (date and hour)
- report daily and periodic results (X et Z), résultats in comparative mode
- connection to most POS systems. Manages opening tables and cumulative tickets using Hart96 protocol
- EasyReader included
- MasterTerminal is available in a single table unit, or double unit when combined with to other modules (FCM, COF, DIS), or in a dispensing tower
- easy installation, convenient use for distributor and customer
- possibility to program Flexicap and CodeCap pourers if a FCM module is in the same network

Dimensions :
Single table unit 185 x 220 x 95mm
Double table unit 270 x 220 x 95mm

Weight :
Single table unit 1.25 kg
Double table unit 1.5 kg
